pamar

Rendere la maniglia un segno inconfondibile, è ciò che PAMAR fa, da cinquant'anni, con vera arte. Un'azienda nella quale la ricerca costante della qualità è una pratica quotidiana, estesa a tutto il processo: dal design e sperimentazione, alla produzione, alla vendita fino alla comunicazione. Una realtà d'impresa che ha scelto il design come linguaggio universale per dialogare col mondo. Progetto e produzione italiana, tecnologie d'avanguardia, design internazionale, innovazione sono alla base del successo di Pamar, oggi. La collaborazione continua con architetti, designers affermati ed emergenti ha permesso di creare collezioni di maniglie, pomoli e accessori per mobili, spesso anticipando le esigenze dell'industria dell'arredamento. Basic News è il catalogo che raccoglie e racconta le più recenti maniglie, a ponte, a barra, incasso, pomoli e ciondoli, con estetiche molteplici. Tutte progettate per un uso flessibile e trasversale, sono proposte in diversi materiali: zama, alluminio, ottone, legno, plastica, vetro, cuoio e ceramica.

In fifty years PAMAR has made the handle an artistic and distinctive icon. For the company, constant research into quality is a daily practice, and is extended to the entire process: from the design and testing stages to production, the final sale, right through to advertising. PAMAR has chosen design as its universal language to communicate worldwide. Italian design and production, cutting-edge technologies together with international design and innovation all go to form the basis of Pamar's success. The ongoing collaboration with architects, established and emerging designers, has allowed for the creation of collections of handles, knobs and furniture accessories that often anticipate the needs of the furniture industry.

Basic News is the catalogue that collects and describes the latest designs: bridge handles, bar handles, integrated handles, knobs and pendants. All come in different designs and are superbly flexible, suitable for various uses. Available in a variety of materials: Zamak zinc alloy, aluminium, brass, wood, plastic, glass, leather and ceramic.
